

Battery powered control cabinet

Does a selectcell battery need a power control cabinet?

Every SelectCell battery system requires a Power Control Cabinet between the battery and the inverter. The simplest configuration is a single PCC between the battery and the inverter. The PCC makes for a simple and neat installation.

What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

What is a selectcell battery system?

The SelectCell battery system completes the Selectronic Eco System by providing a fully integrated Multi-mode Inverter, Battery storage and Power Control Cabinet (PCC) solution. Suitable for high peak power and large energy storage applications, the SelectCell battery system brings together new levels of integration and performance.

In addition, you can set a timer (30/60 Minutes) with the remote control in case you forget to turn off the lights. The battery operated puck lights are powered by 3 x AA battery which makes battery powered LED closet light shine longer than most other products with Non-LED Light source. Wireless design, stick it onto any surface with Double-side Tape (6 pcs included). No drill, no ...
