

# Battery tray manufacturer phone number address

What is a battery tray?

The battery tray is made of aluminum extrusions and aluminum parts, it is the bearing part of battery pack in electric vehicle. Energy storage is the core of the development of electric vehicle and car, and battery pack is an important part of the energy storage system.

Where should a battery tray be located?

Horizontally and perpendicular to the boat's center line- the given amount of pressure for one minute on both the starboard and port sides. When choosing a location for the battery tray, you must be aware that the tray and battery must not be directly above or below a fuel tank, filter, or fuel line.

Who makes electric vehicle Battery trays?

FONNOV ALUMINIUM is an aluminum extrusion manufacturer of electric vehicle battery trays. We produce and assemble aluminum extrusions for electric car battery tray (also called ev battery tray, ev battery box, or ev battery enclosure). We produce custom aluminum trays with aluminum 6061T6, 6082T6 for electric vehicle battery pack.
