

# Buenos Aires lithium energy storage power supply custom manufacturer

Where will lithium batteries be made in Buenos Aires?

State company Y-TEC, the tech arm of YPF, will open the first lithium battery cell factory in September, in La Plata, the capital of Buenos Aires province. Another plant, five times bigger, will kick off in Santiago del Estero in 2024.

How many people can a lithium battery power Buenos Aires?

The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas. For example, there is already a Buenos Aires province-backed project to supply the Paulino-Berisso island, home to 70 families who are currently off the power grid.

Who is Argentina Lithium & Energy Corp?

Welcome to Argentina Lithium & Energy Corp. Argentina Lithium & Energy Corp is focused on acquiring high quality lithium projects in Argentina and advancing them towards production in order to meet the growing global demand from the battery sector.

How many companies are involved in a lithium project in Argentina?

These are some of the findings from a report prepared by the consulting firm Aleph Energy, led by Daniel Dreizen, which analyzes the global lithium market while delving into Argentina in greater detail. These are the 41 companies of various characteristics that participate in the country's 64 projects.

Does Y-TEC sell lithium in Argentina?

In the case of lithium, Y-TEC signed a contract with American company Livent, which extracts the mineral in Catamarca and, for the first time, sold part of its production in Argentina. According to Salvarezza, for industrialization to grow in scale, part of the production ought to be sold on the local market.

Is Arcadium lithium still produced in Argentina?

Arcadium Lithium, the firm that resulted from the merger between Livent and Allkem, two of the three companies that were already producing lithium in Argentina, accounts for 13% of global production. Output has quadrupled in the last ten years, but is still attributable to only a few countries and projects. Another Argentine Unicorn on the Horizon?

The majority-state-owned company Y-TEC is set to open its first industrial-scale lithium battery plant in the city of La Plata, in Buenos Aires province. The facility arrives after several years of research and US\$10 million of investment that allowed the company to carry out laboratory work and first test the feasibility of the project at a ...

## Buenos Aires lithium energy storage power supply custom manufacturer

Buenos Aires -- Global demand for lithium will continue to grow in the coming years, propelled predominantly by a rising production of electric vehicles. While the price for lithium used in batteries has dwindled toward historic lows, an exclusive report to which Bloomberg L&#237;nea shows that a balance between supply and demand could be reached ...
