

Damascus battery subsidy phone

Why is Damascus not able to use a power generator?

The town has access to very limited electrical power over long periods of time, making it difficult to use power generators that need to be recharged frequently when in use, such as the batteries commonly used by the residents of the Syrian capital, Damascus, and some rural areas. Power cuts hours vary clearly between Damascus and its countryside.

Does Damascus have a 'new' power rationing program?

Elias Khoury, a resident of Bab Touma neighborhood in Damascus, talked to Enab Baladi about a "new" power rationing program in his area, in which "electricity goes out for three hours and come back for another three hours," according to him.

How much does it cost to live in Damascus?

The average cost of living for a family of five in Damascus had, indeed, continued in the past few months to increase, from 1,847,200 SYP in September 2021 (equivalent to 735 USD) to 2,026,976 SYP (equivalent to 807 USD) in December 2021. This represents an increase of about 9.7% in just three months, or 177 % over a year.

How long do power cuts last in Damascus?

Power cuts hours vary clearly between Damascus and its countryside. The countryside witnesses blackouts for two days only for the power to come back on the third day for two hours only, while the capital witnesses power outage for hours.
