

# Emergency Battery Box

What is the battery box?

The Battery Box is a block for storing energy for later use, used before Galactcraft 2 was released and has since been removed. It can hold 2.5 Mega Joules (MJ).

How much energy does a battery pack hold?

The model box used is the "XL" (LSBX0155) and the total capacity/energy of the battery pack is 7000 Wh (7 kWh). Never before has a fire containment system been successfully tested to contain such a high energy load. Visit our other Battery Box website for more information !

How do I install the emergenc kit?

The emergenc kit is supplied with two loose velcro loop strips. These loop strips must be mounted on the wall. This can be done by screwing, nailing or stapling. By hanging it on the wall, you ensure that essential safety equipment is always within arm's reach in case of a battery fire emergency.

What is a lithium Safety Store?

Equipped with advanced early warning systems, plus fire-suppression technology, including a Kevlar-reinforced structure and specialized heat-blocking materials, the Lithium Safety Store (TM) is a fortress against lithium battery fires. Its built-in water inlet fire extinguishing port allows any unit to be manually flooded via a one-way inlet valve.
