How does a pv4in1 Charger work?

The PV4IN1 charges and powers mobile devices such as phones or tablets anywhere, any time. This inverter includes a fold-down plug to charge directly from an AC wall outlet, a plug to charge from a vehicle's 12V CLA outlet, a 5V USB-A input cord and a 9V battery input for short-term emergency power (battery not included).

What accessories are included with the pv4in1?

To make it easy to charge any mobile device, the PV4IN1 includes four charging adapters: Apple's 30-pin, Nokia's 2 mm, Sony's PSP, and USB Mini-B. For on-the-road portability, the included travel pouch holds the inverter and the adapters. We have a range of accessories designed to work with our products. Check them out!

How do I charge my pv4in1?

To charge your device, just connect it to the USB output port or the retractable 24 in. Micro-USB charging cord. To make it easy to charge any mobile device, the PV4IN1 includes four charging adapters: Apple's 30-pin, Nokia's 2 mm, Sony's PSP, and USB Mini-B. For on-the-road portability, the included travel pouch holds the inverter and the adapters.

How much does a battery charger cost?

We found some that were around \$100, and others as high as \$180, and they were from well-known brands. Case-Mate is such a brand, and the Fuel power station is a fine addition to their collection. Adding magnets to the iPhone and AirPods charging components would have been nice, because a wayward pet or child could easily knock devices loose.

4-in-1 Jump Starter and Portable Power Station with 150-PSI Air Compressor and LED Light, SJ1330 - 1000 Peak Amps, 12 Volt for Car, Truck, SUV, and Marine Batteries 4.2 out of 5 ...
