

What are the key players in the capacitor market?

Some of the key players from the capacitor market such as KYOCERA Corporation provides ceramic capacitor that has a wide voltage range and low series resistance (ESR). These specifications are well-suited for automotive applications. Thus, rise in sales of electric vehicles is likely to have a positive impact on the market.

What is the growth rate of the capacitor market?

The global capacitor market is expected to grow at a CAGR of 6.5% from 2018 to 2030. The market growth is attributed to the increasing demand for capacitors in various applications, such as industrial, automotive electronics, consumer electronics, energy and others.

Why is China a major market for capacitors in Asia Pacific?

China is a prominent market in Asia Pacific for capacitor due to the availability of raw materials and strong presence of small-scale capacitor manufacturing companies in the country. Furthermore, increase in usage of capacitor for the automotive and power and utility sectors drives capacitor market growth.

How big is the electric capacitor market?

The electric capacitor market size was valued at USD 20.6 billion in 2023 and is set to grow at 7.1% CAGR from 2024 to 2032, driven by the positive outlook toward electronic components, predominantly due to investments in consumer electronics, automotive, and other manufacturing facilities.

How big is the electric capacitor market in 2023?

Electric Capacitor Market size was valued at USD 20.6 billion in 2023 and is set to grow at 7.1% CAGR from 2024 to 2032. The electric capacitor industry in recent years has undergone various improvements and strengthened its roots across a spectrum of electronic & electrical applications.

Which region will be the largest market for capacitors in 2017?

Asia Pacific is expected to be the largest market for capacitors with a revenue share of over 35% in 2017. The region has been witnessing strong economic growth on account of rapid industrialization and urbanization.

General Understanding Chip Capacitors Capacitor Cracks: Still with Us After All These Years Capacitor Packaging Ceramic Capacitor Aging Made Simple Understanding Ceramic Capacitor Terminations Processing Forward/Backward Process Compatibility Johanson Dielectrics Solder Reflow Recommendations for Lead-free Assembly Peak Reflow Times, Temperatures, and ...

Global Capacitor Market by Type (Ceramic Capacitor, Film/Paper Capacitors, Aluminium Capacitors, Tantalum/Niobium Capacitors, Double-Layer/Super capacitors), By Application (Industrial, Automotive Electronics, Consumer Electronics, Energy, Other) And By Region (North America, Latin America, Europe,

Asia Pacific and Middle East & Africa ...

The global market size for electric capacitor was valued at USD 21.3 billion in 2024 and is expected to reach USD 42.6 billion by 2034, driven by a CAGR of 7.4% from 2025 to 2034.

Capacitors are electronic components used for storing charge and energy. In their simplest form, capacitors consist of two conducting plates separated by an insulating material called the dielectric. [View Suppliers](#) [Search by Specification](#) [Learn more about Capacitors](#). Ceramic ...

How can you choose a good cost-effective brand in a large number of brands? BroElectric comprehensive brand awareness of each capacitor, quality level, after-sales service, innovation, consumer reputation and other indicators of the comprehensive selection, released this list of data to facilitate your choice of capacitor brand reference to use.

Global Capacitor Market by Type (Ceramic Capacitor, Film/Paper Capacitors, Aluminium ...

The global capacitor market size accounted for USD 38.91 billion in 2024, grew to USD 41.23 billion in 2025 and is predicted to surpass around USD 69.42 billion by 2034, representing a healthy CAGR of 5.96% between 2024 and 2034.

Capacitor Market (Product Type: Multilayer Ceramic Capacitor, Silicon Capacitor, Vacuum Capacitor, Paper/Film Capacitor, Tantalum Capacitor, and others; ...

Global Capacitors Market to Reach US\$23.5 Billion by the Year 2027. Amid the COVID-19 crisis, the global market for Capacitors estimated at US\$18.8 Billion in the year 2020, is projected to ...

Suntan is an important player in the global capacitor market and holds a significant position in the global market. The company's products are sold to more than 100 countries and regions around the world. The company ...

Capacitor Market (Product Type: Multilayer Ceramic Capacitor, Silicon Capacitor, Vacuum Capacitor, Paper/Film Capacitor, Tantalum Capacitor, and others; Mounting Type: Surface Mounted and Through-Hole) - Global Industry Analysis, Size, Share, Growth, Trends, and Forecast, 2022-2031

Market Overview: The global capacitor market is expected to grow at a CAGR of 6.5% from 2018 to 2030. The market growth is attributed to the increasing demand for capacitors in various applications, such as industrial, automotive electronics, consumer electronics, energy and others.

This article profiles the top 10 global supercapacitor manufacturers providing state of the art ultracapacitor cells and modules catering to varying energy, power density and form factor requirements.

Global Capacitors

The global market for Capacitor was estimated to be worth US\$ 23990 million in 2023 and is forecast to a readjusted size of US\$ 29600 million by 2030 with a CAGR of 3.1% during the forecast period 2024-2030. The Capacitor market, which involves the production and use of capacitors in various electronic and electrical applications, is influenced by several ...

How can you choose a good cost-effective brand in a large number of brands? BroElectric comprehensive brand awareness of each capacitor, quality level, after-sales service, innovation, consumer reputation ...
