

Good wholesale price for solar street lights

How much do solar street lights cost?

This considers costs for components, installation, maintenance, and electricity bills. During the 15-year lifespan, traditional lampposts cost around \$12,000. Solar street lights with motion sensors or different models, only cost around \$5,000-\$6,000 for that same period, making them cheaper and more cost-efficient.

What are solar street lights?

The lighting fixture is commonly referred to as the bulb. To make better usage of solar energy, solar street lights use LED technology, because they are 68% more efficient than HPS fixtures. The energy produced from solar panels is stored in the batteries, and later on at night, is used by lighting fixtures, to illuminate public areas.
