

How much is the battery export shipping price

How much does it cost to ship a lithium ion battery?

The cost of transporting up to 50 pounds of lithium-ion battery is typically between \$50 and \$60. However, the delivery price will be greater for lithium-ion batteries that weigh more than 50 pounds, usually costing between \$75 and \$100. Due to the greater cost of shipping per pound, shipping by air will cost extra.
