

# How to install the battery of the transformer cabinet

How do you install a cabinet on a pallet?

Slowly roll the cabinet toward the right side of the pallet. Once the pallet tilts, continue rolling the cabinet down the pallet until the cabinet is clear of the pallet. 9. Discard or recycle the pallet and unused shipping brackets in a responsible manner. 10. Roll the cabinet to its final installation location. 11. Proceed to paragraph 3.3.

How do you wire a line-up & match cabinet?

Power and control wiring can be routed through the top or bottom of the cabinet with connections made to easily accessible terminals. Line-up-and-match cabinets are wired through the side panels of the units. The IDC supports custom configurations and scalability to adapt to changing and future power and distribution needs.

How do I install a branch circuit breaker?

Install the customer supplied branch circuit breakers (Cutler-Hammer type CH) into the Distribution Panel. Wire the branch circuits according to the branch circuit breaker manufacturers ratings and instructions, and national and local electrical codes (output is prewired to the panelboard).

How do you install an IDC on a ups cabinet?

Push the IDC toward the UPS cabinet until the doors are flush with each other. If not already installed, mount the hanger brackets to the top right side of the IDC using M4 screws (see Figure 3-4). If not already installed, hang the side panel on the hanger brackets and align with the front and rear of the IDC.

What should I do if my Eaton cabinet is damaged?

If damage has occurred or shortages are evident, contact your Eaton service representative immediately to determine the extent of the damage and its impact upon further installation. NOTE While waiting for installation, protect the unpacked cabinet from moisture, dust, and other harmful contaminants.

How to install STS 6000k-h1 smart transformer station?

Page 22 STS-6000K-H1 Smart Transformer Station (Vietnam, Duc Long Gai Lai) Installation Guide 3 Equipment Installation the embedded ground grid, and the other end should be connected to the ground point of the container. When burying a ground grid, leave a sufficient slack for the ground bar to ensure its connection to the STS.

The Powerware® 9390 Integrated Distribution Cabinet (IDC) is designed for use with the Powerware 9390 family of three-phase uninterruptible power systems (UPSs). The IDC provides the following custom configurable features, enabling adaptation and expansion without costly electrical rework:

# How to install the battery of the transformer cabinet
