

# International ranking of batteries

Who makes the most EV batteries in the world?

China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells and control nearly 60% of the EV battery market. 13. Amperex Technology Limited (ATL) 12. Envision AESC 11. Gotion High-tech 10.

Who is the largest battery company in the world?

Contemporary Amperex Technology Co. Limited (CATL) has swiftly risen in less than a decade to claim the title of the largest global battery group. The Chinese company now has a 34% share of the market and supplies batteries to a range of made-in-China vehicles, including the Tesla Model Y, SAIC's MG4/Mulan, and Li Auto models.

What are the top 10 power lithium battery manufacturers in the world?

The world's top 10 Power Lithium battery manufacturing companies include China's CATL, BYD Company, Panasonic, and Guoxuan, with a total of five large lithium battery companies. CATL had sales of 32.5 GWH last year and a market share of 27.87%, firmly ranking first in the world.

Which country produces the most battery?

Chinese giant Contemporary Amperex Technology Co., Limited (CATL) alone is forecasted to produce more than the combined output from Canada, France, Hungary, Germany, and the UK. Currently, China is home to six of the world's 10 biggest battery makers.

How big is the global battery market?

As the demand for EVs, renewable energy storage, and portable electronics continues to increase, the race to produce efficient, high-capacity batteries becomes more intense. The global battery market is projected to reach \$329.8 billion by 2030, growing at a CAGR of 15.8%.

What are the top 10 battery companies in the world?

1. Global Top 10 Battery Companies 1.1. BYD Co., Ltd. 1.2. Clarios 1.3. Contemporary Amperex Technology Co., Ltd. (CATL) 1.4. Exide Industries Ltd. 1.5. GS Yuasa Corporation 1.6. LG Chem Ltd. 1.7. Panasonic Corporation 1.8. Samsung SDI Co., Ltd. 1.9. Tesla, Inc. 1.10. Tianjin Lishen Battery Joint-Stock Co., Ltd. 2.

In 2023, the leading ten global leaders in electric vehicle battery manufacturing were located in Asia, and six of them were based in China.

Higher Education World University Rankings 2025. This year, we have ranked more than 2,000 institutions from 115 countries and territories. University rankings 2025: key insights Oxford holds on to the top spot for the ninth consecutive year, bolstered by significant

Batteries for light electric vehicles (cars, SUVs, LCVs, and pickup trucks) had a faster production growth rate (+40%) than EVs (+35%) in 2023, as the market had several models introduced with...

\*Based on internal test by GP of the average percentage of battery capacity charged after a 10-minute charge as of May 2021. Calculated from 5 simultaneous charges of 4pcs of new Charge 10 1700mAh AA batteries to 90%+ of capacity at 20°C, followed by battery discharge according to ...

According to the latest statistics from SNE Research, from January to July 2024, the global market's installed capacity of power batteries for electric vehicles (including PEV, ...

China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells ...

In this graphic we rank the top 10 EV battery manufacturers by total battery deployment (measured in megawatt-hours) in 2023. The data is from EV Volumes. Contemporary Amperex Technology Co. Limited (CATL) has swiftly risen in less than a decade to claim the title of the largest global battery group.

Global risk management organisation DNV identified the top ten battery cell manufacturers by volume in its 2022 Battery Scorecard report. Here we take a look at the top ...

Despite these challenges, Li-ion batteries remain central to the ongoing evolution of both the electric vehicle and consumer electronics industries. The purpose of this blog is to highlight and explore the top 17 global manufacturers of lithium-ion (Li-ion) batteries.

Despite these challenges, Li-ion batteries remain central to the ongoing evolution of both the electric vehicle and consumer electronics industries. The purpose of this blog is to highlight and explore the top 17 global ...

Global risk management organisation DNV identified the top ten battery cell manufacturers by volume in its 2022 Battery Scorecard report. Here we take a look at the top ten by projected cell production in 2022 and highlight the latest developments impacting on each manufacturer's business.
