

Kingsdon domestic battery investment value

Is the UK a leading market for battery storage?

Image: InterGen. The UK has found itself in a leading position among the world's markets for battery storage, with last week's Guest Blog from Solar Media Market Research analyst Mollie McCorkindale offering insights and putting numbers on its progress.

Can UK battery storage be financed?

In this article, experts from advisory groups Lane Clark & Peacock (LCP), Apricum - The Cleantech Advisory and law firm CMS offer their take on the development of financing and investment in UK battery storage.

Are batteries making extraordinary returns in the GB power market?

Batteries have been making extraordinary returns in the GB power market since Q4 2020. Revenues for 1 hour duration batteries have soared above 200 €/kW/yr in 2022, more than double levels required to cover long run investment costs. The primary driver of high BESS returns has been ancillary service revenues.

Which markets are leading battery deployment in Europe?

3 key markets are leading battery deployment in Europe: GB, Germany & Italy. BESS deployment across these 3 markets alone could reach 45-50GW by 2030. There are some common value drivers across all markets, but investors also face some significant differences in risk/return dynamics across each market.

Could a 900 MWh battery accommodate a site near London?

Planning permission has been granted for Gateway, a battery project which could accommodate up to 900MWh of capacity at a site near London. Image: InterGen.

Are the British Isles a utility-scale battery or a tortoise?

The British Isles are to utility-scale batteries as the Galapagos Islands are to tortoises: the isolated island home to a curious, outsize, marginal, yet instructive population. However, the somewhat faster evolution of UK BESS merits more frequent study.

An accelerating UK energy transition is good news for battery investment. Renewable targets are rising fast. Coal, nuclear and CCGT capacity is retiring. "Dynamic Containment is grabbing battery headlines... but ...
