

Large capacity battery pack with cable

What is a good battery pack for an iPhone?

Iniu B61 10000mAh If you need more power than the Anker Nano provides, this Iniu B61 10000mAh packs enough juice to charge an iPhone more than once, and it's small enough to slip into a front pocket without much bulge. It's also a great price for such a sleek little battery pack. 6. Anker MagGo Power Bank (10K)

What is a good battery capacity?

Smaller batteries, say those that can charge a smartphone to between 50 and 75 percent, tend to have a 5,000mAh capacity. Larger batteries that can recharge laptops and tablets, or give phones multiple charges, can exceed 25,000mAh and we have a separate guide that covers that entire category.

What is the best battery pack for Anker MagSafe?

This impressive little external battery pack from Baseus is a strong contender for knocking Anker's MagSafe battery off its pedestal in this guide. Baseus' bank is about half the price and has a built-in USB-C cable so you can recharge non-iPhones without needing to have a cable on hand. The cable can also be used to recharge the bank itself.

Which portable batteries keep your phone going longer?

Other portable batteries on this list can keep your phone going longer, but none are as convenient. With a 10,000mAh battery, dual 20W USB-C PD outputs for charging two devices at once, and five color options, the Nimble Champ offers convenience and portability in an attractive package.

Which USB-C cable is best for a 100W power bank?

Luckily, power banks capable of delivering 100W tend to include a compatible cable. For any devices that don't, we've tried and liked Anker's 100W USB-C cable. For smaller devices, we used this 60W cable from Nimble and we don't recommend bothering with cables under 60W.

How many phones can a 20,000 mAh battery charge?

A 20,000mAh battery can charge two phones twice, or a phone twice and a tablet once. Some power banks have enough juice to power laptops. Of course, a higher capacity often translates to a heavier, larger, and more expensive battery. In the end, it's best to assess your typical needs before buying.

Anker 313 Power Bank is incredibly slim and light for its large cell capacity. It can charge a phone up to three times and most tablets once. Weighing just half a pound, it's only slightly heavier than a baseball and is designed to fit comfortably in your palm or pocket; perfect for work or traveling. Advanced Charging Technology

The TravelCard Plus has less than a third of the Belkin's capacity, but it's much lighter and slimmer.. Its USB-C PD port, built-in USB-C cable, and built-in Lightning cable can fast-charge ...
