

Lead-acid battery company export data

Who makes lead acid batteries?

Key lead-acid battery manufacturers, including Crown Battery, EnerSys, C&D Technologies, East Penn Manufacturing, and NorthStar, largely drive the growth of the North American lead acid battery market share. These companies are focused on product development, which leads to the introduction of advanced lead-acid batteries in the market.

What is the global lead acid battery market?

By application, the global lead acid battery market is segmented into automotive, UPS, telecom, and others. The automotive segment dominates the global market and is estimated to grow at a CAGR of 4.6% during the forecast period. The automotive segment is divided into e-bikes, passenger cars, and vehicles.

What drives lead acid battery market growth?

Rising demand for lead acid batteries and rapid technological advancements and expansion in the telecom sector, are major factors driving market revenue growth. Lead acid battery, also known as lead storage battery, is a rechargeable battery, which uses lead and sulfuric acid materials for the function, and are highly reliable.

What is the segmentation of the global lead acid battery market?

On the basis of application, the global lead acid battery market is segmented into automotive, UPS, telecom, electric bikes, transport vehicles, and others. The automotive segment is expected to account for significantly large revenue share in the global lead acid battery market during the forecast period.

Which countries dominated the lead acid battery market in 2022?

The Asia Pacific market accounted for largest revenue share in the global lead acid battery market in 2022 due to rising adoption of Electric Vehicles (EVs). The Chinese government plans to ease restrictions on automakers importing cars into the country to reduce demand-supply gap.

What is a lead acid battery?

Although the process of data verification is an integral part of the research process, all data points and statistics and figures are re-checked to uphold their authenticity and validity. Lead acid batteries are rechargeable batteries consisting of lead plates with a sulfuric acid/water electrolyte solution.

The global exports of lead acid battery stood at USD 10.2 billion in 2020, a slight decline as compared to the previous year. And imports of the product valued USD 9.8 billion in the same year. Look at the global export & import picture of lead acid battery reported from 2011 to ...
