

Lisbon Green Energy Storage Project Bidding Announcement

Will EDPR build a 5 MW green hydrogen plant in Portugal?

EDP Group plans to build a 5 MW Green Hydrogen Plant in Portugal and will approach the Electrolyzer market to purchase equipment and services for such plant to be started up until the end of 2024. EDPR plans to issue during May an tender to acquire a PEM technology Hydrogen production and respective balance of plant.

How much does Portugal spend on hydrogen projects in 2021?

In 2021, the Portuguese government launched a call for hydrogen projects, and it attracted EUR16 billion (\$16.9 billion) of proposed investments. The EUR40 million that Lisbon is providing to support this initiative is part of the national hydrogen strategy.

How many tons of green hydrogen & methane will Portugal give developers?

The Portuguese authorities plan to award 10-year contracts to developers for 3,000 tons of green hydrogen and 10,000 tons of renewable methane. From pv magazine Spain

Who is funding the energy storage Awards?

The Winners Are Set to Be Announced for the Energy Storage Awards! The grants will be funded by the EU's Emissions Trading System. Image: CC. The EU has today (23 November) launched a grant funding opportunity worth EUR4 billion (US\$4.4 billion) for upstream and downstream clean energy projects, including energy storage.

Will a centralized purchase of biomethane help decarbonize gas consumption in Portugal?

"The bases of the first tender in Portugal for the centralized purchase of biomethane, synthetic methane and green hydrogen have been defined, which will help to start decarbonizing gas consumption in the country," said Jorgo Chatzimarkakis, the CEO of Hydrogen Europe.

Is grid access a scarce resource in Portugal?

Secretary of state for energy João Galamba said that grid access is a scarce resource in Portugal in an interview with PV Tech. Image: Portuguese government.

Most recently, on September 30, 2023, NHPC Limited invited bids for 1.5 GW of firm and dispatchable renewable energy (FDRE) from ISTS-connected renewable energy, along with energy storage system projects ...

With 21 318 GWh of electricity generated in Portugal between January and June 2022 - 57% of which of renewable origin - storage will be decisive for the much-desired energy ...

Lisbon Green Energy Storage Project Bidding Announcement

FOR IMMEDIATE RELEASE. 16 May 2023 . Today the Independent Electricity System Operator (IESO) announced seven new energy storage projects in Ontario for a total of 739 MW of capacity.. The announcement is part of the province's ongoing procurement for 2500 MW of energy storage to support the decarbonization and electrification of Ontario's grid, which was ...

EDPR plans to issue during May an tender to acquire a PEM technology Hydrogen production and respective balance of plant. This equipment will be the core part of a facility, to be installed in 2024, for grid injection and mobility project that has been granted investment support under the Portuguese PRR program.

The EU has today (23 November) launched a grant funding opportunity worth EUR4 billion (US\$4.4 billion) for upstream and downstream clean energy projects, including energy storage. The grant funding will come from the EU's Innovation Fund, which is funded by revenues from the bloc's Emissions Trading System (ETS), a scheme which aims to ...
