When people think about lead acid batteries, they usually think about a car battery. These are starting batteries. They deliver a short burst of high power to start the engine. There are also deep cycle batteries. These are found on boats or campers, where they're used to power accessories like trolling motors, winches or lights. They deliver a lower, steady level of power for a much ...

Lead-acid Battery. Wholesale Lead-Acid Battery for PV systems. Invented in 1859 by French physicist Gaston Planté, the lead-acid battery is the earliest type of rechargeable battery. In the charged state, the chemical energy of the lead-acid battery is stored in the potential difference between the pure lead on the negative side and the PbO₂ ...
