

# Manufacturer s spare battery cabinet

What is a lithium-ion battery cabinet?

lithium-ion battery cabinet is designed by battery experts to provide a green, reliable, lightweight and longer service life energy source for uninterruptible power supply (UPS). It ...

Why should I have spare batteries on site?

Having spare batteries on site gives you the ability to react quickly by replacing the defective battery in no time. Keyitec provides cabinets for spare batteries:

How many batteries can be stored in a keyitec cabinet?

Keyitec provides cabinets for spare batteries: Flexible: 1 or 2 or 3 or 4 tray = 4 or 8 or 12 or 16 battery storage  
Easy to scale as required, multi battery models can be stocked in single cabinet Flexible: Accepts 12V blocks  
28Ah - 150Ah Flexible: 12V parallel wiring, easy to remove single batteries

What are the advantages of a modular hot-swap battery cabinet?

Modular hot-swap battery cabinets with string protection and individual string disconnection. - Frontal switch/breaker protection. - Frontal input output connections. - Easy battery replacement. - Suitable for rigid cables and cable-glands. - Suitable for tripping coil contact (on request).

Why should you have a spare battery in your ups system?

Batteries in your UPS system(s) can fail at any time. Only one defective battery in a string makes it useless and can jeopardize your business by leaving you with no backup when you need it most. Having spare batteries on site gives you the ability to react quickly by replacing the defective battery in no time.
