

# Medical waste battery price table

The Unbeatable Prices of Bio-MED's Medical Waste Disposal Services. The Unbeatable Prices of Bio-MED's Medical Waste Disposal Services. In the complex and often costly world of healthcare, every dollar saved without ...

For these, including dental clinics, veterinary offices, or even tattoo parlors, you can expect a monthly expense from a wallet-friendly \$50 to a still-reasonable \$200. Now, when it comes to hospitals and big health facilities, the story changes. They produce tons of waste, so their bills are on the higher side.

Potential Risks: Infectious waste poses a risk of disease transmission, sharps waste can cause injuries and potential infections, hazardous waste can have toxic effects on human health and the environment, and improper disposal of pharmaceutical waste can lead to drug diversion and environmental contamination.

Medical waste can be categorized based on the risk of causing injury and/or infection during handling and disposal. According to the World Health Organization, 85 % of medical wastes are non-hazardous, around 10 % are infectious and approximately 5 % are non-infectious but hazardous wastes [6].
