

# National 8 battery price

Does National do a battery test?

At National, our technicians can carry out a FREE battery test. This only takes a few minutes - a quick and simple health check that can diagnose any underlying battery faults. The test involves checking the voltage, start capacity and condition of the battery.

What type of battery charger does National Luna use?

The NLDC-25 from National Luna is a DC to DC battery charger and isolator for a dual-battery system. It will charge an auxiliary or service battery from a vehicle alternator or Solar panel up to 25A output current. Traditional 12V and 24V vehicle alternators as well as variable voltage alternators are supported.

What is a Napa Car Battery?

Made along with OE batteries, the NAPA range uses calcium technology. This offers a longer life, reduction in water loss, and more resistance to higher temperatures when it's under the bonnet. This battery is also suitable for diesel engines. How much is a car battery? The cost of a car battery varies depending on the type you need.

Which Napa batteries are suitable for diesel engines?

Suitable for diesel engines, NAPA PLUS uses up-to-the-minute labyrinth technology to guide water back into the battery to maintain a healthy fluid level. These can be fitted to most vehicles and are the standard flooded lead-acid battery from NAPA.

Why should I choose national for mobile battery fitting?

Choose National for mobile battery fitting and get your new car battery delivered and installed when and where you want.

Does National offer a free battery health check?

At National, we offer a FREE battery safety check which can be booked online, with the check taking place at a branch local to you. Our free battery health check will be able to identify any underlying faults with the battery. If no underlying faults are found, this free check will give you that extra peace of mind.
