

Nordic battery installation

Who is Nordic batteries?

Nordic Batteries fills the gap in the value chain between cell producers and system integrators, completing the Norwegian value chain for battery production. They have developed battery modules and ground-breaking technology for automated assembly. CEO Jarle Gjøsæther received the diploma from Frank Bråthen in Kongsberg last week.

Why should you choose Nordic batteries?

At Nordic Batteries we focus on what is important: safety, reliability and performance. Nordic Batteries fills the gap in the value chain between cell producers and system integrators, completing the Norwegian value chain for battery production. They have developed battery modules and ground-breaking technology for automated assembly.

What is the Nordic battery collaboration?

The Nordic Battery Collaboration is founded on Norway, Sweden, and Finland's shared similarities and comparative strengths across the battery value chain. The three countries work closely together with a joint value proposition which aims to attract foreign direct investments as well as strategic partnerships with OEMs and R&D centres.

What is Nordic battery Thursdays?

Nordic Battery Thursdays is a collaborative webinar series that provides in-depth insights on the potential, opportunities and impact of the battery sector within the Nordics. The purpose is to promote the Nordic drive for a sustainable battery value chain towards both the Nordic region and international markets.
