

Nubia looks at battery consumption

How long does it take to charge a Nubia Z60 ultra?

Update, 14 August, 2024: The side-by-side testing of the Z60 Ultra with its just released Leading version returned slightly lower results for charging speed. At this point in time, the regular nubia Z60 Ultra would take 50 minutes to get to 100% (previously 40 minutes) and a half hour would get us to 73% (87% at the original review time).

Is the Nubia Z60 Ultra a good phone?

The web browsing result took a minor hit (12:24h vs. 13:00h, 5%), and video playback got an adjustment too (19:11h vs. 20:47h, 8%), but the gaming longevity reduction was the most notable (9:31h vs. 10:50h, 12%). The nubia Z60 Ultra does remain one of the best phones for battery life in its class, even with this adjustment.

Does the Nubia Z60 Pro have wireless charging?

Here are the updated charts. The nubia Z60 Pro lacks wireless charging, as does the iQOO. A lot of the others do have an induction coil though, and that could affect your purchasing decision one way or the other. The nubia Z60 Ultra features a stereo speaker setup with a familiar arrangement.

Is Nubia a 400 ppi panel?

It's got an unusual resolution, at 1,116x2,480px, but perhaps nubia was targeting the 400ppi density. Of course, the panel supports a 120Hz refresh rate, and the Ultra employs 2160Hz PWM for flicker-free dimming. The official specs promise 1,500nits of peak local brightness.

How long does a Nubia Z60 ultra last?

The nubia Z60 Ultra did well in the web browsing too, although it didn't top the charts there. Its 13 hours are more than the vivo X100 Pro's, and Oppo Find X7 Ultra's, but are less than the OnePlus 12's 14 hours and 39 minutes - that's from a phone with 600mAh less.

Is the Nubia redmagic 8 Pro A good device?

Compared with devices from the Premium segment (\$600-\$799), the Nubia RedMagic 8 Pro ranked in the first place of our database, achieving the best autonomy score for this segment. The charging experience was also excellent, but the efficiency score was only average compared with device from the same price range.
