

Outdoor solar powered cover

What is a solar patio cover?

A solar patio cover, also known as a solar powered patio cover, is a type of shade structure for your backyard porch that can provide your home with solar electricity. It's usually attached to your home and is supported by 2 or more columns or posts. A solar pergola is the perfect for homeowners who can't install solar panels on their roof.

What is a solar panel patio cover by extension?

A solar panel patio cover by extension is a patio cover with solar panels incorporated into its design, either sitting on top of the patio or the roofing material itself. You can use the power from the panels in plugs, batteries, and lights for whatever capacity your patio needs.

Can solar panels be installed on a patio cover?

Solar panels can be installed on an existing patio cover or a new patio cover. Adding solar to the roof of your patio cover will provide free power and shade for your home at the same time. Solar patio cover installation quotes in Arizona! Alternative Energy, LLC can help with solar patio cover installation all over the state of Arizona.

Can a slanted patio cover be used for solar panels?

You'll have to coordinate a custom job with a slanted patio cover roof from Alumawood with the solar panel installer to get the solar panel patio cover of your dreams. If you have an existing pergola from them, it should be fine for solar panels as long as it meets the requirements.

How do solar panel patio covers work?

The solar panels integrated into the patio cover generate electricity, which can either power the home or be fed back into the grid for credit. The popularity of solar panel patio covers is on the rise, driven by a growing number of homeowners seeking to reduce their carbon footprint and cut energy costs.

Can you use a solar patio cover in your back yard?

Luckily you can use a solar patio cover in your back yard if you have enough space. According to EnergySage, "Solar patio covers are part of an emerging category of solar that uses a structure other than the roof of your home or business as the framework for a solar system installation.

Solar panel patio cover provides additional outdoor space in your backyard. Additionally the structure holds solar panels for years with timely maintenance. With patio solar installation you can increase home value and prepare an aesthetic appearance in your backyard.
