

Philippine battery blister packaging manufacturer

What is blister packaging in pharmaceutical industry?

In pharmaceutical industry blister packaging is used to pack tablets, pills, capsules, granules or lozenges and also to pack different goods viz. pens, pencils etc. The name derives from the fact that each item packed in blister packaging is contained within its own small plastic bubble, or blister. It is also called as a bubble or push-through-pack.

Who is the best blister packaging manufacturer?

Elsepack has consistently been the best blister packaging manufacturer for over 10 years. That is why our blister tray process is based on the best technologies such as custom thermoforming. Besides, we are well equipped with more than 10 efficient thermoforming machines that are capable of producing millions of packages every year.
