As an intelligent equipment supplier in PV industry, our product portfolio can now serve the four major sectors of PV industry chain: Rod, Wafer, Cell and Module. Our products mainly include Czochralski Monocrystal Growth Furnace, Wafer Inspection System, Cell Screen Printing Machine, High Speed MBB PV Cell Soldering Stringer, etc.

Company Profile Building core technology and casting eternal quality - to build a domestic first-class photovoltaic equipment production base. Suzhou SC-SOLAR Equipment Co., Ltd. founded in 2010, is a wholly owned subsidiary of J.S. Machine (stock code: 000821).

The photovoltaic effect is used by the photovoltaic cells (PV) to convert energy received from the solar radiation directly in to electrical energy [3]. The union of two semiconductor regions presents the architecture of PV cells in Fig. 1, these semiconductors can be of p-type (materials with an excess of holes, called positive charges) or n-type (materials with excess of ...

Suzhou Xinben Intelligent Technology Co., Ltd. is a high-tech enterprise that develops, sells, ...

Suzhou Xinben Intelligent Technology Co., Ltd. is a high-tech enterprise that develops, sells, manufactures, and services automation and intelligent equipment for photovoltaic cell module packaging. Our company's products have more than 30 models. The core products are EVA-long pad laying machine, automatic loading/unloading small corner ...

Jwell specializes in providing the following intelligent equipment for photovoltaics, lithium batteries, and energy storage: EVA/POE solar encapsulation film production line; PP/PE photovoltaic cell backplane production line; BIPV photovoltaic building integration; photovoltaic silicon wafer cutting pad extrusion equipment; JWZ-BM500 ...

Photovoltaic cell intelligent packaging equipment

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box soldering, curing, final testing, labeling, sorting, and packaging of the produced modules.

MAHEXING focuses on the complete set of integrated equipment solutions for non-standard automatic assembly lines in the solar photovoltaic midstream industry chain (batteries and modules), providing one-stop service, technology, quality, delivery and cost for world-renowned photovoltaic enterprises from design, assembly ...

With the development of automation and informatization in the PV cell manufacturing, we have ...

With the development of automation and informatization in the PV cell manufacturing, we have evolved from providing single machines to segmented integrated equipment, and then to providing full lifecycle whole-line solutions to make intelligent production processes more efficient.

It has high-level R& D and design and manufacturing capabilities in the fields of industrial robots, fully automatic packaging equipment, large logistics systems, new energy vehicle power battery equipment, photovoltaic equipment and intelligent software. It adheres to the "Industry 4.0" orientation and is committed to serving customers Provide ...

Our automated Solar/PV modules production line includes a complete set of ...

HORAD is a world-leading manufacturer of turnkey line solutions for photovoltaic intelligent equipment, providing customers with automated production lines, including solar module production lines and digital intelligent turnkey ...
