

Pioneer lithium battery project

Who is pioneer lithium?

At Pioneer Lithium, we're leading the charge in lithium exploration and development with a focus on Canada's dynamic energy landscape. Our passion lies in pioneering lithium exploration and development, and we're proud to introduce our flagship projects: Root Lake, Lauri Lake, and LaGrande.

Where is pioneer lithium located?

Pioneer Lithium's La Grande project is located in the "red hot" James Bay lithium region of Quebec and is made up of three prospects (La Grande-River, La Grande-Quatre West, and La Grande-Quatre East) spanning a total area of 4,687 hectares.

Will pioneer IPO a \$5 million IPO?

Pioneer, which is looking to list on the ASX with the proposed code of 'PLN', has launched a \$5 million initial public offering (IPO) to support its plans to hit the ground running in Ontario and Quebec to test the significant lithium potential the company has already identified.

Where are pioneer's projects located?

Pioneer's other projects, both owned 100%, are Lauri Lake, to the south in the Thunder Bay, and LaGrande in Quebec's prolific James Bay region. Lauri Lake has evidence of fertile granite fractionation and pegmatites, with mapping completed by the Ontario Geological Survey in the 1960s, but little follow-up work has been completed.

Where is Pioneer Mining located?

Pioneer's immediate focus is the highly prospective Root Lake project, located in Ontario and strategically positioned between the Root Bay and McCombe / Morrison mineral resources announced by Green Technology Metals.

What makes pioneer a great company?

With a board and senior management team that's had a hand in early-stage exploration, project development and spodumene mining in Canada, Pioneer has a passion for developing lithium exploration prospects into long-term operational assets and delivering returns to shareholders through sustainable operations.
