

Port-au-Prince Solar Manufacturing Plant

Why is USAID building two solar power plants in Haiti?

With the construction of these two solar power plants, USAID and its partners, including the IDB and Government of Haiti, are seeking to improve the economic competitiveness and sustainability of the PIC and its surrounding communes by providing a more affordable and reliable electricity service.

Will USAID finance the construction of a solar power plant?

This large renewable solar energy program initiated by IDB, to which USAID is contributing, will finance the construction of two solar power plants inside the PIC, an 8 MW plant and a 4 MW plant, with a construction value of \$23 million.

Who is responsible for the construction of solar power plants?

The construction of these solar plants will be implemented by the Ministry of Finance Technical Operating Unit (UTE/MEF), with technical support from the State energy regulator, Autorit#233; nationale de r#233;gulation du secteur de l'énergie (ANARSE) and the Ministry of Public Works, Transport and Communication (MTPTC).

Why do we need a solar power plant in Haiti?

USAID Mission Director Chris Cushing remarked, "Improving infrastructure in countries like Haiti fosters stability and accelerates economic growth through job creation, allowing them to progress beyond assistance. These solar power plants will create more opportunities for the residents of Caracol and the surrounding communities."

What is the market for commercial-scale solar in Haiti?

The addressable market for commercial-scale solar in Haiti is over \$500 million, according to 10Power's estimation. The company has a sales pipeline in the country totaling over \$100 million, and plans to explore possibilities in Puerto Rico and sub-Saharan Africa next.

Can a private company build a large-scale solar energy project in Haiti?

A private company can collaborate with an NGO to build a large-scale solar energy project in Haiti, according to an article in Forbes. The specifics of the partnership and the company's role are undisclosed.
