We found the best portable solar chargers to keep your mobile devices, flashlights, and battery packs charged and ready for camping, travel and emergency use

By miniaturising solar panels, and making them more portable, you can charge your smartphone, tablet or even laptop using free energy directly from the sun - or, in some cases, you can even store that energy for later use. In theory, you can be away from the mains for days and still keep your devices powered up.

These are the best solar generators to keep your gadgets charged during power outages and off-grid campouts. We outline the benefits, drawbacks, portability, and battery life of each.
