Face à la stratégie industrielle agressive de la Chine au Maroc dans le secteur des batteries de véhicules électriques, les États-Unis tentent de mettre sur pied un partenariat minier avec Rabat. Mines, Diplomatie 01.08.2024

Head of Morocco's Government, Aziz Akhannouch, chaired, on Friday in Rabat, the signing ceremony of the investment agreement of BTR New Material Group's strategic project to build a production unit for cathodes, an essential component of electric vehicle batteries, worth 3 billion dirhams.

Morocco's electric vehicle industry reached a new milestone as the Moroccan government held a grand signing ceremony in Rabat at the end of March 2024, marking a significant investment agreement with Chinese battery material leader, BTR New Material Group.

Battery industry giants, including South Korea's LG and China's Gotion, have announced three major electric vehicle battery plants in Morocco in recent months. But the sourcing of their critical metals remains a major unknown factor. Some material could come from Moroccan subsoil and as such, royal holding company Al Mada and OCP, allied with ...

The Moroccan project, led by Gotion's wholly-owned subsidiary Gotion Power Morocco S.A., will be located in the Rabat region. Designed for phased development over five years, it aims to integrate battery cell production with a localized raw material supply chain, leveraging Morocco's strategic industrial base and regional advantages.
