

# Ranking of domestic battery cell manufacturers

Who is the largest battery company in the world?

Contemporary Amperex Technology Co. Limited (CATL) has swiftly risen in less than a decade to claim the title of the largest global battery group. The Chinese company now has a 34% share of the market and supplies batteries to a range of made-in-China vehicles, including the Tesla Model Y, SAIC's MG4/Mulan, and Li Auto models.

Who makes the most EV batteries in the world?

China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells and control nearly 60% of the EV battery market. 13. Amperex Technology Limited (ATL) 12. Envision AESC 11. Gotion High-tech 10.

What are the top 10 power lithium battery manufacturers in the world?

The world's top 10 Power Lithium battery manufacturing companies include China's CATL, BYD Company, Panasonic, and Guoxuan, with a total of five large lithium battery companies. CATL had sales of 32.5 GWh last year and a market share of 27.87%, firmly ranking first in the world.

Which EV battery manufacturer has the largest market share?

According to SME Research, CATL is the world's largest EV battery manufacturer, with 37.7% of the market share. Plus, it is the only battery supplier with a market share of over 30%. CATL has 6 R&D facilities, five in China and one in Germany. In 2023, they spent about \$2.59 billion in R&D, an 18.35% increase from the previous year.

Which battery maker has the most competitive EV product?

Still, the top three battery makers are responsible for two thirds (66%) of the total battery deployment, which highlights the importance of scale in this business, in order to have the most competitive product on the market. Panasonic, once upon a time a leader in the automotive EV business, has continued its slow slide down the table.

Who makes the best battery?

This was driven by demand from its own models and growth in third-party deals, including providing batteries for the made-in-Germany Tesla Model Y, Toyota bZ3, Changan UNI-V, Venucia V-Online, as well as several Haval and FAW models. The top three battery makers (CATL, BYD, LG) collectively account for two-thirds (66%) of total battery deployment.

In this article, we'll take a look at the top 10 largest battery manufacturers in the world by market share. Read on to find out which companies top the charts in 2022.

# Ranking of domestic battery cell manufacturers

It's simple to understand how a firm like CATL has grown to become the top battery maker in the world, given the wide variety of battery technologies now being researched. To that end, the most recent data for 2022 only reinforces the company's position as the industry leader in batteries.

In this graphic we rank the top 10 EV battery manufacturers by total battery deployment (measured in megawatt-hours) in 2023. The data is from EV Volumes. Contemporary Amperex Technology Co. Limited (CATL) has ...

In this graphic we rank the top 10 EV battery manufacturers by total battery deployment (measured in megawatt-hours) in 2023. The data is from EV Volumes. Contemporary Amperex Technology Co. Limited (CATL) has swiftly risen in less than a decade to claim the title of the largest global battery group.

Ranking of China's Residential Energy Storage System by Shipment in 2021 Jan 06, 2022. Currently, the market for residential energy storage systems is mainly concentrated in Europe, North America, Australia and South Africa. In terms of battery cell selection, since the system providers of early residential energy storage systems are mostly local companies in ...
