

# Ranking of solar energy downstream enterprises

Who are the top 20 solar module manufacturers?

The module shipments of the top 20 manufacturers increased by more than 50% year-on-year, of which the shipments of the top four accounted for 59.95% of the total shipments of the top 20. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as previous year.

Who are the top 10 solar companies in the world?

The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as last year. Chint (Astonergy), Tongwei, Canadian Solar, Risen Solar, DAS Solar, GCL SI and First Solar were among the top five to ten.

Which companies are leading the global PV module market in 2022?

A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 270GW in 2022, gradually taking over the global PV module market with their unique advantages. LONGi, the king of the PV industry, supplied 46.76GW of modules in 2022, up 21% year-on-year.

Who is the best solar company in the United States?

8. Sunrun Proudly the number one home solar and battery company in the US, more than 900,000 homes across the country in its customer base. Sunrun partners with Ford for its Home Integration System, a first-of-its-kind technology that lets customers power their lives at home and on the road.

Which solar brands have a strong market share in 2023?

The Top 4 and Top 5-9 lists remained relatively stable in 2023, with established and emerging brands holding their ground. JinkoSolar, Trina Solar, LONGi, and JA Solar collectively shipped over 270 GW, claiming a 52% market share. The Top 9 brands, in total, surpassed 400 GW in shipments, securing a robust market share exceeding 75%.

Will 2023 be a competitive year for the solar industry?

As the solar industry continues to advance, 2023 sets the stage for a competitive 2024, where each company will strive for a pivotal role in the ever-expanding global solar market. In the dynamic world of solar energy, 2023 proved to be a noteworthy year for the top solar module manufacturers.

Canadian Solar, Risen Solar, Chint, Tongwei, DAS Solar and Seraphim were among the top five to ten. A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 270GW in 2022, gradually taking over the global PV module market with their unique advantages.

Obviously, orders for modules in solar industry are further concentrated on the top enterprises, the no.1 camp forming by the top 4 manufacturers, Jinko Solar, Trina Solar, Longi and JA Solar, accounting for over 60% of the global shipments in the first half of the year, and the top 10 accounts for more than 85% in total. On the whole, the top enterprises in the list have ...

The goal was to promote the coordinated progress of upstream and downstream industrial chains and to help the photovoltaic industry build its brand and develop new technologies. The PVBL's annual list of the Top 20 ...

[Ranking] TOP 25 Energy Companies Q3/2023 Intro. The energy industry plays a vital role in the worldwide economy, serving as the backbone of numerous sectors. Without energy, modern society as we know it would come to a standstill. on the other hand, has excelled in the field of energy storage, developing advanced battery technologies for

Driven by the growth of international photovoltaic ("PV") market, owing to China's construction of large solar PV power plants and the Golden Sun demonstration projects between 2006 and 2010, China rapidly developed a relatively complete industry chain, which is dominated by crystalline cells and covering crystalline materials, components, manufacturing equipment ...

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Module Manufacturers was announced. The revenue of the top 10 module manufacturers exceeded 700 billion yuan and the shipments exceeded 400GW in 2023, almost double the total of the top 20 in 2022.

Explore Sinovoltaics 2024 Financial Stability Ranking Reports based on Altman Z score for financial strength of 70+ Solar PV modules, Inverters, and BESS manufacturers.

Based on the Dual Carbon targets, PV-related topics such as industrial development trend, technological innovation and integration of solar power storage were discussed, with the aim of promoting the coordinated ...
