

# San Salvador Outdoor Energy Storage Power Sales

El Salvador's energy regulator, SIGET, said this week that the country's total installed PV capacity reached 633 MW by the end of 2023. The nation's total installed power generation capacity now stands at 2.99 GW, with 638 MW from hydropower. Solar accounts for about 21.1% of the nation's electricity mix.

Victor Atehortua, MPCES project manager, told La Prensa Grafica that the company plans to develop some 70 MW of projects to reach 100 MW in El Salvador in the next three years. Besides Santa Rosa and Villa Sol, MPCES also owns the 6.4-MWp San Isidro solar farm in the country.
