

# Shopping Mall Solar Photovoltaic Franchise

Is solar a good investment for a retail shopping center?

Investing in solar photovoltaic systems can be a wise investment for a retail shopping center owner. In many states and situations, installing solar power in a mall or other retail shopping centers can provide a serious competitive advantage over competitors that do not invest in solar.

Can solar power power a shopping mall?

Using solar power to power a shopping mall is a great idea. Malls, with their large expanses of flat roof space, are a logical place to install solar panels. Any business related to trade, in one way or another, consumes electrical energy. Accordingly, the use of solar power plants is economically justified and expedient.

Should a shopping mall have a solar roof?

Investing in a solar power system can be the smartest investment that a shopping mall owner will ever make. In fact, many famous shopping malls worldwide have been making clean energy shift with solar roofs in the past years. Solar roofs for shopping centers have numerous benefits.

Are shopping malls the future of energy management?

Shopping malls and similar venues present attractive, big-time opportunities as potential sites for grid-connected solar power, energy storage and intelligent, highly energy-efficient facilities management.

Should you install solar power on your retail shopping center rooftops?

Installing solar power on retail shopping center rooftops could also provide MACRS depreciation and huge tax write-offs. Take advantage of a 30% federal tax credit and any state tax credit that might be available. MACRS depreciation allows shopping mall owners to depreciate a large percentage of the system cost in the first year of operation.

Why should you install solar panels on a shopping mall?

Electricity can be stored in batteries until it is needed during an emergency or when the sun goes down. Solar power provides an efficient source of power. Renewable energy produces zero pollution. Installing solar panels on shopping mall rooftops provides great publicity for reducing pollution.

Ala Moana Center, Hawaii's largest shopping mall, installed a 2.8 MW solar system on the previously unused rooftop and parking canopy structures that cover over 4,500 spaces. The solar panel system has over 13,000 solar panels and generates almost 5 ...
