Monocrystalline 20 watt solar assist panel with built-in charge regulator and mounting stake. Solar assist panels connect directly to your 12v battery extending the period between battery charges or cutting out the need for charges altogether. Fitted with built-in charge controller to charge against over-charging and discharge of the battery ...

This is a 2.5w solar assist panel to fit on and power the Hotline Shrike. It works by directly powering the energiser leaving the internal batteries to only be used when there is not enough daylight available. The pulse is ever so slightly faster when being powered by the panel but the energiser still gives out the same voltage. To fit it, clip it into position on the top of the Shrike ...
