

# Solar Photovoltaic Product Quality Supervision and Inspection Agency

What is a quality control inspection for solar PV?

This inspection covers visual inspection, quantity verification, field testing and measurements, and certification checks such as IEC, UL, and CE marking. These inspections can be performed at various stages, including: Apart from our quality control inspections for solar PV, we provide a variety of vendor assessment services.

How can a solar panel quality control service help you?

We can help you reduce your risk of receiving faulty products and ensure that all stages in your project, from verifying your solar supplier, conducting a solar panel quality check to completing the PV project, conform to acceptable norms and applicable standards with our tailored PV quality control services.

Who is CGC solar project review agency?

CGC is the designated project review agency for China's Golden Sun Demonstration Project. Its customers include the top ten manufacturers in terms of shipment volume. CGC has issued over 3,600 PV product certificates and has served more than 60 GW of solar power plants.

Why is quality control important in the manufacturing of PV modules?

Quality control plays a crucial role in the manufacturing of PV modules. The process is highly intricate and involves several components, such as silicon cells, glass, and wiring. While the production process involves collaboration with multiple suppliers and manufacturers, making quality control challenging.

Does pro QC do a solar panel quality inspection?

Pro QC has agile teams of electrical and mechanical engineers in more than 88 countries ready to meet your quality assurance needs for projects ranging from a solar panel quality inspection to a comprehensive factory audit. What does a solar panel quality control inspection cover?

Who is STS solar?

STS is the first company ISO17020:2012 accredited for PV modules pre-shipment inspection, the highest qualification level of inspection bodies. Established in 2010 by a team of seasoned French solar industry veterans, STS is the result of our passion to advance sustainability progress, and our relentless drive to solve our client's challenges.

CGC is the designated project review agency for China's Golden Sun Demonstration Project. Its customers include the top ten manufacturers in terms of shipment volume. CGC has issued over 3,600 PV product certificates and has served more than 60 GW of solar power plants. The industry widely recognizes CGC's technical capabilities and service ...

# Solar Photovoltaic Product Quality Supervision and Inspection Agency

modules of the National Solar Photovoltaic Product Quality Supervision and Inspection Center was held at the same time. This marked the start of cooperation and technical services etc. between the National Photovoltaic Quality Inspection Center and Trina Solar in the reliability testing of ultra-high power modules, in order to jointly facilitate Chinese photovoltaic industry ...

China Quality Certification Centre (CQC) is the first certification body authorized by the Chinese government to carry out green building materials product certification for PV modules and solar PV systems, and the certification results will be fully acknowledged in the formulation of documents, evaluation of procurement projects, engineering construction, completion and ...
