

Control boxes are crucial for housing and protecting electronic devices, such as sensors and machine operation controllers. Their applications span various industries, including factory automation, elevator controls, and train operation systems. These boxes safeguard sensitive electronics from external shocks, dust, and other detrimental ...

Introducing BigBattery's 48V ETHOS Systems! The ETHOS Control Box, which connects to both your inverter and battery modules, regulates and monitors your ETHOS system. These revolutionary, stackable, on-grid power systems were ...
