

Solar panel roof tiles

What are solar roof tiles?

Solar roof tiles are slightly different to other types of solar technology as they blend seamlessly with your roof while providing your home with green electricity. This makes them the perfect match for people who want to benefit from cheaper energy bills and renewable energy, but don't like the look of solar panels.

How much do solar roof tiles cost?

An average of 3.5 kW solar roof tile system will cost you £9,500. Information last updated in July 2024. By contrast, on average, 3.5kW worth of solar panels will set you back £7,026. But remember, you are also getting a new roof with your solar tiles, so direct price comparison is slightly misleading.

Are solar roof tiles a good option for your home?

If you want to benefit from solar power for your home but would love to preserve the aesthetics of a tiled roof, solar roof tiles might be the way to go. Sometimes called "invisible solar," solar tiles are also a great option for solar power upgrades to listed buildings or buildings in conservation areas.

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Are there solar roof tiles in the UK?

All you need to do is hose the roof down periodically with warm water. Unlike solar panels, availability of PV roof tiles in the UK is limited at the moment. Only a few companies currently make solar tiles, the main ones being Solecco Solar in England and GB-Sol Solar tiles in Wales.

Who makes solar roof tiles?

Only a few companies currently make solar tiles, the main ones being Solecco Solar in England and GB-Sol Solar tiles in Wales. The most widely recognised global solar tile brand is the Tesla Solar Glass Roof, and the company accepts online orders from around the world. Are solar roof tiles worth it?
