

Spare lithium battery external power cable

What is a Spare lithium battery?

Please note that spare lithium batteries, also called "loose" batteries, are carried separately and used as backup to recharge lithium-ion batteries installed in mobile phones, laptop computers and other equipment.

How does the Bosch 3rd party power supply cable work?

The Bosch 3rd party power supply cable connects your drive to useful accessories on your e-bike. Attachments and safety accessories such as ABS, GPS trackers or the Bosch Miller cornering light can be supplied with power from the battery. Two different connection sockets are available on the motor.

What are the different types of auxiliary power cables?

Two different connection sockets are available on the motor. The auxiliary power cable is therefore available in two variants - one for the low power port (green - light output) and for high power port (yellow - additional current output). Both ports provide 1 ampere of current. The only difference between the ports is the short-term maximum load.

What is a good battery pack for camping?

High quality products from leading outdoor manufacturers include the portable Dometic lithium-ion battery pack, the Arkpak 730 Battery Box, chargeable power banks, heavy duty battery chargers and many more products that can be run from a 12v battery, car battery or other power supply. WHAT CAN I USE OTHER POWER SOURCES FOR WHEN CAMPING?

Can a Primus power bank charge a mobile phone?

Suitable for camping, fishing, caravanning and other outdoor activities, the Primus Power Bank can also be used to charge your mobile phone or tablet. With multiple charging options via AC, DC adapter and solar panel charger (not included), the Primus Power Bank can deliver instant power wherever you need it. WHAT ABOUT LONG CAR JOURNEYS?
