Spherical harmonic (SH) lighting is a family of real-time rendering techniques that can produce highly realistic shading and shadowing with comparatively little overhead. All SH lighting techniques involve replacing parts of standard lighting equations with spherical functions that have been projected into frequency space using the spherical harmonics as a basis.

Shipping Container Solar Lighting Kits provide lighting in shipping containers and storage areas with 2 days of battery technology for cloudy, rainy, or snowy days with 8 hours per day of run time. Prewired turn-key kits with Bluetooth technology for smart phone viewing of system data are easy to set up, reduce wiring and labor costs, and are an efficient alternative to generators.

Spherical containers offer distinct advantages for holding PCM in TES compared to cylindrical, rectangular, and other shapes [30]. The symmetrical shape of spherical containers promotes uniform thermal distribution, enhancing phase change efficiency and ensuring more even melting and solidification of the PCM. They have the lowest surface area ...
