Split solar radiator installation

This manual covers the installation of Enduro SP200B, Enduro XL SP250B and Excelsior SP200BEX solar collectors as part of complete solar hot water systems. Full instructions on the installation of the complete system can be found in the "Operation / Installation Manual - Rinnai Split Solar Hot Water Systems".

The installation can be laid out with rails parallel to the rafters or perpendicular to the rafters. Note that SOLARMOUNT rails make excellent straight edges for doing layouts. Center the installation area over the structural members as much as possible. Leave enough room to safely move around the array during installation.

Voici les étapes de l'installation des capteurs solaires thermiques : la mise en service, de la qualité de l'installation, les coefficients de perte thermique. Optez pour l'installation de panneaux solaires thermiques pour rendre votre ...
