Stun baton battery price

What is a stun baton?

Features of Our Stun Batons: High Voltage Electric Shock: Our stun batons deliver a powerful electric shock, capable of disabling an attacker, allowing you the chance to escape. The high voltage serves as a strong deterrent, making it a reliable tool for self-defense.

How much does a stun baton weigh?

This stun baton measures just 13.5" long,so is comfortable to carry. It also comes with a metal belt clip for those that prefer a hands-free experience. At 1.89lbs,however,it's a little cumbersome to take out running. On the other hand,if you're looking for a self-defense weapon for walking the streets at night it's ideal.

How much electricity does a stun baton use?

With 12million voltsof electricity, a 150-lumen tactical flashlight, and an exterior made from military-grade aluminum alloy, this self-defense weapon deserves some respect. This stun baton measures just 13.5" long, so is comfortable to carry. It also comes with a metal belt clip for those that prefer a hands-free experience.

What is the best stun baton?

The most incredible stun baton manufactured! The 19" Star Warrior stun batonhas 150,000 volt arcs running up and down the entire unit above the handle. It is an awesome sight!

How much damage does a stun baton do?

In Half-Life 2,the stun baton deals forty damageto NPC's and to the player without the HEV Suit. If the player has an HEV Suit it only deals ten damage,though the console says it does forty damage. In Half-Life 2: Deathmatch,the stun baton will take three hits to kill a fully healed enemy, albeit very slow.

How long is a stun baton?

This stun baton is made with shock-proof military-grade alloy,making it ideal for those wanting a "whomping weapon" that packs an extra punch! At 14.6" long,it's got good reach and uses Triple Stun Technology to create a wider stun radius. Check Prices on The Home Security Superstore
