These have their merit, but the best part of a small prefabricated cabin is that you aren't waiting for tomorrow. Make the most of what your piggy bank has today instead of counting pennies for an extra five years when your needs will have changed again, and you lose all of the momentum of outdoor cabin time.

Keep on reading to see the five cheapest cabin kits we could find, with the cheapest coming in right under \$6000. DuroSpan Hangars (starting at \$5,999) DuroSpan cabins are massive for the price- with one big caveat.

My husband and I built and currently live in our off-grid cabin, which we built ourselves from scratch, foundation to roof. I researched MANY prefab, package, yurt, etc., options before we went this route. Hands-down, the cheapest, most customizable option is to build yourself from scratch.
