

# Two-body solar street light

What are all in two solar street lights?

All in two solar street lights are mostly used in commercial solar lighting projects & municipal engineering lighting projects. GM Series All In Two Solar Street Light 20W-120W (LiFePO4 lithium battery built into lamp body, no sensor) FD Series All In Two Solar Street Light 120w-200w (LiFePO4 lithium battery built into lamp body, with sensor)

What is the difference between FD and R7 solar street lights?

FD Series All In Two Solar Street Light 120w-200w (LiFePO4 lithium battery built into lamp body, with sensor) R7 Series Split-type Solar street Light 40w-300w (LiFePO4 battery with aluminum battery box separated, under the solar panel or hang on the pole).

What Watts Does HeiSolar use for Streetlight monitoring & building smart cities?

Streetlight monitoring and building Smart-cities has never been so easy. HeiSolar knows from experience that each project will have specific needs. SW (all in two) is available in a range of standard watts 120w to 200w. Its design allows you to adjust the solar panel, lithium battery capacity according to your specific application.

What is a smart solar Streetlight control system?

The smart solar streetlight control system enables full control and monitoring over your solar light poles, making it a perfect building block for smart-city applications.

How to choose the right solar light for your business?

For commercial solar lighting, it must be with a high spec of LiFePO4 battery and a solar panel that can ensure light works at 100% brightness for 12 hours. Only with real high specification, the light can work well even in winter or on cloudy days.

Motion sensor for choice to save more power if needed. The all-in-two solar street light is the most widely used street light on the market. The solar panel is mounted on top and the light source needs to be extended with a support arm.

There is independent street light luminosity test report with customizable 3030/5050/7070 light bead, satisfying the roadway lighting demands for urban expressways and urban main roads. Innovative lens design and bat wing light distribution make the light distribution more uniform.

Two-body design, exquisite appearance; Intelligent control, energy saving and environmental ...

According to the market and customer feedback, we eliminated the old public model of the integrated solar street light, retaining our classic FL Series Super Bright All-in-one Solar Street Light to light up Africa. The FL Series has two types, one comes with an adjustable sleeve, another one comes with bracket with a bent

All in two solar-powered led street lights manufacturers based in China, offer high-quality street lights with customized spec service. Get a quote now!

Systellar Innovations manufactures Integrated Solar Street light in 12W, 15W, 20W, 25W, 30W, 40W, 60W and 80W LED power. Integrated Solar Street light consists of a Solar panel and LED luminary with built-in Lithium-ion / Lithium Ferro Phosphate battery (LiFePO4) battery and solar driver card with charge controller.

## Two-body solar street light

All-In-Two Solar Street Lights refers to semi-integrated solar led street light with inbuilt battery, which is a composite of traditional split type solar street light and all in one solar street lamp s Lithium battery and controller are built into the led lamp body, so it"s easy to install. The rotatable solar panel with unlimited size ensures maximum power generation.
