

What to do if the battery power is reduced after extension

How do I fix a bad battery?

Your computer will automatically search for the battery device driver and install it. Plug in the charger and see if the problem is fixed. You may want to check your charger as well. If you can, get another charger from a friend or a store and see if changing the charger helps.

Is it normal for battery capacity to decrease over time?

Although it is normal for battery capacity to decrease over time, I would run a 'manual' calibration. By that I mean let your battery drain right down until it is no longer capable of powering your laptop. Then plug in the power lead and let the battery fully charge to maximum (without using the computer). So, plug it in until it charges 100%.

How can I improve my laptop battery performance?

Laptop configuration and power settings can impact the battery performance. This includes settings such as: Consider the following to help reduce the power consumption of the computer and conserve battery charge: Disconnect external devices when not in use. Reduce the brightness of the screen. Reduce the amount of open software.

How do I fix a battery problem in Windows 11?

As for Windows 11, head over to Settings > System > Power & battery and then select the Best Power Efficiency option under Power mode. Now see if this fixes the battery issue, or else continue to the next solution.

How do I reinstall a battery?

Right click Start to open Device Manager, under Battery choose the battery device, then Driver tab, then if available Roll Back the driver. If not available, choose Uninstall Driver, restart PC to reinstall. If nothing else helps then you might need to replace the battery or the charger..

How to increase battery life on Windows 10 laptop?

In such a situation, setting it to low-performance mode would be reasonable if you're seeking to extend your laptop's battery life. To change the power plan on a Windows 10 laptop, just click on the Battery icon on the Taskbar and then drag the slider to the left side to set it to Best battery life mode.
