

Where to look for solar power supply and charging

How do I choose a solar charger?

Small, foldable, and light solar chargers are more common now. Despite their size, they can produce usable amounts of power thanks to advancements in solar panel efficiency. Chargers may come with backpack mounts, kickstands, frames, or other mounting solutions. It's best to pick one that matches your use case.

Which solar charger should I buy?

The big brother of our best budget winner above, the BigBlue 3 28W solar charger offers up to 12W (5V at 2.4A) on each port. While it's not quite a replacement for a fast charger, you should get a strong charge on most smartphones while also charging a second phone or power bank.

How do I get a quote for a solar charging station?

Our staff is here to help and can walk you through your options and possible placement locations. Call 1-800-403-1560 to get a quote. Or, fill out the quick form or catch us on our Live Chat! Discover GrowCharge's solar charging stations for devices. Harness the power of the sun to keep your devices charged on the go.

Should you buy a small solar charger or power bank?

With the smaller solar chargers and power banks, you need to be realistic. Although solar panel technology is evolving all the time, most solar cells are only between 15% and 25% efficient when converting the sun's energy into output, and that means you need a lot of surface area to get decent results.

Do you need a solar charger?

Whether you're dealing with an unreliable power supply or want to make sure you can charge your essential gadgets when far away from the grid, a solar charger is an essential part of your hiking, travel, or emergency kit. We've reviewed our recommendations and have updated the best overall pick.

What should I look for when buying an outdoor solar charger?

A final thing to consider is ruggedness. While most outdoor solar chargers are fairly robust, some are more waterproof than others, for example. If you're planning very wet or dusty adventures then look for the relevant IPX rating to ensure you're not left powerless in the middle of nowhere.
